CREATE A PASSWORD FOR OVERDRIVE

Use the Library Card option (Recommended)

Beginning November 2016, you must have a password to access Overdrive. Your password must be the same password you use when you access your **Library Account**. If you already know your Library Account password, you may sign into Overdrive with your library card number and password, and begin searching for titles.

If you know that you have created a Library Account password in the past and do not remember it, you can reset it by going to www.cplib.org. Click on *My Library Account* and follow the on-screen instructions to reset your password.

Please note that for this option, you must have an email address on file in your library record.

If you do not have an email address in your library record and need to create or reset your Library Account password, you can either:

1. Come to the library and add an email address and password to your library record **OR**
2. Call the Circulation Desk and ask to have your email address entered into your library record. Once the email address is added, you may go to www.cplib.org, click on *My Library Account*, and create or reset your Library Account password.
